A Common Cold

Is often the beginning of serious affections of the Throat, Bronchial Tubes, and Lungs. Therefore, the importance of early and effective treatment cannot be overestimated. Ayer's Cherry Pectoral may always be relied upon for the speedy cure of a Cold or Cough.

Last January I was attacked with a severe Cold, which, by neglect and frequent exposures, became worse, finally settling on my lungs. A terrible cough soon followed, accompanied by pains in the chest, from which I suffered intensely. After trying various remedies, without obtaining relief, I commenced taking Ayer's Cherry Pectoral, and was

Speedily Cured.
I am satisfied that this remedy saved my life.—Jno. Webster, Pawtucket, R. I.

I contracted a severe cold, which suddenly developed into Pneumonia, presenting dangerous and obstinate symptoms. My physician ordered the use of Ayer's Cherry Pectoral. His instructions were followed, and the result was a rapid and permanent cure.—H. E. Stimpson, Rogers Prairie, Tex.

Two years ago I suffered from a severe Cold, which settled on my lungs. I consulted various physicians, and took the medicines they prescribed, but received only temporary relief. A friend induced me to try Ayer's Cherry Pectoral. After taking two bottles of this medicine I was cured. Since then I have given the Pectoral to my children, and consider it

The Best Remedy
for Colds, Coughs, and all Throat and Lung diseases, ever used in my family.—Robert Vanderpool, Meadville, Pa.

Some time ago I took a slight Cold, which, being neglected, grew worse, and settled on my lungs. I had a hacking cough, and was very weak. Those who know me best considered my life to be in great danger. I continued to suffer until I commenced using Ayer's Cherry Pectoral. Less than one bottle of this valuable medicine cured me, and I feel that I owe the preservation of my life to its curative powers.—Mrs. Ann Lockwood, Akron, New York.

Ayer's Cherry Pectoral, here, the one great remedy for all diseases of the throat and lungs, and is more in demand than any other medicine of its class.—J. F. Roberts, Magnolia, Ark.

HOUSEHOLD HINTS.

Glass jars of fruit should be wrapped in newspapers to exclude the light.

When troubled with the griddle smoking, try greasing with fresh lard as a preventive.

To keep an iron pot from rusting, each time before putting it away rub it with grease that has no salt in it.

New tins should be set over the fire with boiling water in them for several hours before food is put into them.

If soot is dropped on the carpet, cover it thickly with salt, and it may be swept up without injury to the carpet.

In a basin of water, salt will, of course, sink to the bottom; so never soak salt fish with the skin side down, as the salt will fall to the skin and remain there.

Any cooking utensil that is slightly broken or damaged may fitly be reserved for the cooking of onions, as a vessel in which they have been cooked is scarcely fit for anything else.

The best remedy for burns is claimed to be essence of pepper-mint and whisky mixed. Wet a soft cloth or raw cotton and apply. It stops the pain instantly and draws out the fire.

If white clothing say a dress, is put away in a drawer or closet, it will become yellow; but if placed in a box lined with blue paper, or wrapped with dark blue cloth, it will come as white as it ever was, no matter how long lies.

If you have an old black silk dress or umbrella that is beginning to show the wear by tiny holes, cut of black court plaster pieces of suitable size, moisten enough to stick, lay over the holes on the wrong side and press with a warm iron.

A Treat for the President.
Howard Horton, the fat, greasy, black negro whose voice has echoed and re-echoed through the fourth ward in many a political campaign, stood in front of the Kimball, last night, saying:

"Here is one 'Publican colored voter' who is patiently waiting for president Cleveland, sure."

"And why are you waiting for him, Howard?" asked some one present.

"Why is I waitin'?" "Cause I has got just even thirteen fat, juicy 'possums, and I's argwine to dress one of dem wild partic'lar pains for dat man, an' I knows he'll eat it. You can bet dat four-legged bird will be put up 'cordin' to queen's taste, an' den I's goin' to cook it, too. Does you guess the president will eat it?"

"Can't tell."

"Well, if he don't eat it he ain't no Dem'rat, fer sure. 'Cause all dem 'rats likes 'possum. I am de sweetest meat in de world, and Dem'rats know what is good. I'll bet a 'possum dat de president will eat it."—Atlanta Constitution.

CURED OF MALARIA.
22 Florida St., Elizabeth, N. J., Mar. 17, 1884.

I have been using ALLCOCK'S PAIN-EXPELLER for the last five years. Some two years ago, after having been sick for upwards of six months with malaria, I found myself with an enlarged spleen, dyspepsia, and constantly troubled with a headache, and my kidneys did not act very well either. Having spent most of my money for medicine and medical advice, I thought to save expense I would use ALLCOCK'S PAIN-EXPELLER, two on the small of my back, one on the spleen or ague cake, and one on the pit of the stomach, just under the breastbone. I continued using the Plasters about thirty days, changing them every week. At the end of that time I was perfectly well, and have remained so ever since.

GEORGE DIXON.
A Sanford, Maine, inventor has spent five years in perfecting a carpet loom, which he claims to be the pile-wire loom in the world, running 125 picks per minute, against 90, the fastest looms now in use in this country and in England.

"Scarlet Fever"
Having appeared in our village Darby's Prophylactic Fluid was used for disinfecting the College buildings. The disease never went beyond a single case, either in the College or elsewhere, where the Fluid was used.—REV. PRES. G. F. PRICE, Auburn, Ala.

Darby's Fluid dispels all forms of epidemic diseases by destroying the spores or germ poison that cause contagion.

How a Crane Fished.

"It was about fifty years ago," said Dr. J. M. Kendall, of Bowdoinham, the other day. "I was a youngster, and playing on the bank of the Kennebec. I shall never forget it in my life, how neat I saw a crane get a pickerel dinner. They were driving logs down stream. I watched a crane acting sort of funny, standing perched on one of the logs near the shore. I made up my mind to see what 'twas about, and hid in a clump of bushes. The crane had a bug in its bill and kept dropping it into the current till it floated past him, and then he grabbed it again and repeated the performance. I couldn't think what he was trying to do. He looked to me as if he was going to sleep. The old fellow kept the bug floating in front of the log for half an hour, when all of a sudden a big pickerel came up to the surface and made a dive for the bait. The pickerel was down the crane's throat in less than a second, and Mr. Crane flapped his wings and flew away. He took the bug in his bill, though. They look sleepy enough, but they know more than a good many people—how to get their bread and butter."—From the Lewiston (Me.) Journal.

It takes much grafting, and pruning, and watering, and training, and digging, and tender care to produce a perfect plant, and it takes all this and more to produce the comparatively perfect woman. As to the perfect man there are none of him. All the care in the world, all the money on the earth, all the water in the sea, would not produce even a dim likeness of that unknown creature. The world perfect in all its forms and derivations has been omitted from the fairly bright icon of man.

Every family should be provided with a bottle of Ayer's Cherry Pectoral. It is a specific for colds and coughs.

Malice forces her game laws. Two hunters on the Molebrook bank like killed two deer out of season. The game police from Woburn caught them. The magistrates took them before a magistrate at Moushinegum and fined them \$2,000 for each deer.

No fictitious certificates, but solid facts, testify the marvelous cures by Ayer's Sarsaparilla.

Some people might like the government to establish a national laundry, or a national dish-washing establishment, or a national chop house, but the majority of people no more want the government to own and operate the railroads than they want it to wash their soiled linen and dirty dishes, or to cook their meat.

The foreign beet crop promises to be 200,000 tons less than it was last year, and as the stock of sugar in the world is 200,000 tons less than it was at this time last year some people think there will be an advance in sugar.

The first dose I took relieved me very much, and in one week's time I was as strong and hearty as I ever was. It is the best medicine I ever took for Dyspepsia.

Do You Suffer from Constipation?
Testimony of HIRSH WATSON, Chief Justice of the Peace. "I have used Simmons' Liver Regulator for Constipation of my Bowels, caused by a temporary derangement of the Liver, for the last three or four years, and always with decided benefit."

Have You Malaria?
I have had experience with Simmons' Liver Regulator since 1865, and regard it as the greatest medicine of the times for diseases peculiar to malarial regions. So good a medicine deserves universal commendation.

REV. M. B. WHARTON,
Cor. Sec'y Southern Baptist Theological Seminary.

Safer and Better than Calomel!
I have been subject to severe spells of Congestion of the Liver, and have been in the habit of taking from 15 to 20 grains of calomel, which generally laid me up for three or four days. Lately I have been taking Simmons' Liver Regulator, which gave me relief without any interruption to business.
